There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising **suggests** wants and **creates** desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased, and gives information that the buyer wants **when he wants to buy**.

A Connecting Link

The weakness of display advertising is that often a need is not realised until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying, and where is so logical a place to look as **in this book**.

A Help to You

In your buying, use the lists in this book. If you see a name in **heavy type** it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page ", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to **you** as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you **now** how little it costs to be **protected**.

GLOUCESTER STREET DIRECTORY

GIVING the location of Streets, Places, Parks, Squares, etc., and showing what other streets and places run from them, or across them, with the number at which they intersect

From this list, the location of any number on a street, or the location of any public building, can be easily ascertained; as, for instance, wishing to know at what part of Prospect Street No. 87 is located, you look at Prospect Street, and find that Elm Street runs from 81, and Chestnut Street from 93, showing that 87 would come on the right, between Elm and Chestnut Streets

When a street crosses another, numbers (or ciphers) are given on both sides; but when it begins or ends at that street, the number is given only on the side at which it intersects. Ciphers are used where no numbers exist

* Indicates accepted street. ** Streets accepted in part

Mailing Lists

From our library of directories covering the entire country we compile accurate mailing lists which are up-to-date. Wrong addresses not only mean wasted postage, but loss of possible prospects.

Addressing

Our List and Letter Service Department has competent help trained to do addressing quickly, neatly and correctly.

Letters

Letters do reach the right man. They help your salesmen, they secure business from any part of the country and cost but little. These things are accomplished if the letters really look like typewritten work.

Our letters are not the ordinary "form letter". It is difficult to distinguish them from individual typewritten copies.

Mailing

We are equipped to handle every detail of your mailing. The quality of our directories is well known. Our addressing and mailing department gives you the same kind of work.

List and Letter Service Department

SAMPSON & MURDOCK CO.

246 SUMMER STREET, BOSTON

OUR PUBLICATIONS

For sixty-eight years we have been publishing the very best directories we know how. Disregarding the lure of the "cheap" and "easy" ways of compilation in favor of accuracy and complete information, reaching out always for some new wrinkle to make our books of more service to the public and striving untiringly for the goal of absolute perfection, the Sampson & Murdock Directories have come to be acknowledged all over the country as the standard for excellence among reference books of this kind.

THEIR ADVERTISING VALUE

Advertising is judged, unconsciously perhaps, but still very largely by the medium in which it appears. Those which stand high in the public confidence, as do the Sampson & Murdock Directories, present their pages to readers already favorably inclined and who in many cases are searching for the very goods being advertised. In this case, the advertising has a double appeal and reaches the prospect at the very best possible moment.

HOW TO USE IT

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity. *Put*—"We are listed in the directory" *in your copy*. Tie up all your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the business listings applicable to your business. The phrase will stick long after the newspaper has been mislaid and people will get in the habit of looking for your name when ready to purchase goods which you may carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit.
